<u>Working Experience</u>

I.   *Web Programmer in* Classroom Publications Limited · *2012 - 2016*

Website created:

http://pinkos.com.hk/

It is a responsive website built for our client using PHP and Wordpress. We also create a guide to our client for daily update.

http://classroom.com.hk/students

It is our responsive e-learning platforms for students. We upgraded the platform using ASP.NET MVC with C# and bootstrap.

http://www.classroom.com.hk/idiomworld

It is our responsive e-learning platforms for Chinese idioms. We develop the platform using ASP.NET MVC with C# and bootstrap.

II.   *Software Engineer · 2007 - 2011*

Company:

Rovi Hong Kong Limited

Job Duties:

I create and maintain web services with a US-based agile team for the communication between our database and the Electronic Program Guide, the major product of our company. We use Jira scrum board for issue tracking, confluence for technical documentation and crucible for code review.

III.   *· Assistant Software Engineer · 2006 - 2007*

Company:

The Hong Kong Education City Limited

Job Duties:

We create Kindergarten, Primary and Secondary School Profiles to help parents in Hong Kong to select the suitable schools for their children. We create a CMS for all schools to submit their school information. With all information collected, I generate booklets with all school information in pdf format using VB and Adobe Indesign API.We also create websites for parents to search for schools. I also work on KPI project which indicate our performance in the whole year to the public, in order to get the funding and projects from the government.

<u>Leisure project</u>

http://ninewesthk.com

I create website for my baseball team for public enquiry, new member registration and take attendance using PHP and Joomla. Last year we have about 10 new members joined our team through our website. Some of them are foreigners who live in Hong Kong for a long time but do not have connection with locals about baseball. This makes us the largest and culturally diverse baseball club for adults in Hong Kong.

<u>Education Background</u>

i.   MSc of Data Science and Business Statistics, CUHK (2010)

ii.   Degree of Bachelor of Engineering with Honours, Second Class Lower Division in Computer Engineering (2006)
